

# ESD PLASTIC TWEEZER

This series of anti-static tweezers are made of PPS + fiber synthetic plastic, which has good rigidity, elasticity and toughness, as well as anti-static properties, high temperature resistance, acid and alkali resistance, convenient use and flexible operation.

It is suitable for the production, installation, transfer, activities and other purposes of small components in the electronics industry.

## TECHNICAL DATA SHEET

PN TWLFT01 ESD

Tweezers - Large very fine tip conductive plastic

Surface Resistance:  $10e3-10e5$  OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

PN TWMFT02 ESD

Tweezers - medium fine tip conductive plastic

Surface Resistance:  $10e3-10e5$  OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

PN TWRFT03 ESD

Tweezers - round fine tip conductive plastic

Surface Resistance:  $10e3-10e5$  OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

### PN TWFLT04 ESD

**Tweezers – flat large tip conductive plastic**

Surface Resistance: 10e3-10e5 OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

### PN TWMFT05 ESD

**Tweezers – medium flat tip conductive plastic**

Surface Resistance: 10e3-10e5 OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

### PN TWHFT06 ESD

**Tweezers – handle flat tip conductive plastic**

Surface Resistance: 10e3-10e5 OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

### PN TWCFT07 ESD

**Tweezers – curved flat tip, conductive plastic**

Surface Resistance: 10e3-10e5 OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.7"- 120 mm

Color available: Black Material.

Package: 60 pcs/box, MOQ 17 boxes

### PN TWEFT08 ESD

**Tweezers – elbow fine tip conductive plastic**

Surface Resistance: 10e3-10e5 OHM /sq.

Material: Carbon Fiber + Conductive plastic.

Size: length: 4.5"- 115 mm

Color available: Black

Package: 60 pcs/box, MOQ 17 boxes
